

Care Cash

Financial Support to Secure Care

Includes child and elder care, global availability

Allow employees to flexibly secure their own emergency child care through local systems and support, including family members, whenever needed. Vivvi manages the administration and disbursement of subsidies based on rules set by Vivvi and Company together.

How It Works

- 1 Identify dates & times of care
- 2 Apply for care reimbursement within 14 days of care event
- 3 Sign the release and reimbursement forms
- 4 Receive reimbursement confirmation and deposit

“When our daycare is closed it’s so much less stressful when we can use Care Cash to find backup rather than figuring out which one of us needs to take a day off to cover childcare.”
